Advice to Mothers.
Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the pain from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best own remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle.

GOLDSBORO, N. C., APRIL 14 1892
"THE DAYS OF APRIL."
"The days of April" they are sweet, so sweet, Flushing with tender green the meadow ways, When June will dance with her gay, glad, some feet, To music of a thousand warblers' praise.
"The days of April" they are fair, so fair, With precious promise in the budding flowers, Promise of days all radiant, fresh and rare; Mellowed by gentle dews and fleeting showers.
"The days of April" they are green, so green, And maple buds grow brilliant in the sun, Golden the brookside with the cowslips, sheen, And fragile wind-flowers steal out one by one.
"The days of April" they are dear, so dear, To hearts grown weary of the winter cold, Longing for sunny skies all blue and clear, For birds to pipe and blossoms to unfurl.
"The days of April" they are bright and coy; But one glad April, years and years ago, Held more of charmed hope and love and joy Than all my life again can ever know.—Isabel Gordon in Lippincott's for April.
WHAT THINK OUR FARMERS?
In the April number of the *Southern Farmer* there is an article that, while written in reference to the writer's experience in Virginia, is so applicable to the condition along the same line in North Carolina that we think all of our farmer friends hereabouts can hear of it with profit.
The writer is now a resident of Harrison county, Ohio, who a few years ago was a farmer in Virginia, where he attempted to raise sheep.
The explanation of his failure in the industry furnishes only an additional illustration of the damage which the absence of a dog law is inflicting upon the agricultural interests of our Commonwealth.
Says he, speaking of his experience with sheep in Virginia:
"We had a good farm to keep them on, and they did well as long as the dogs were quiet; but this was not long, for almost every man in the neighborhood had from three to six and eight dogs for fox-hunting. Now, this is fine sport, but rather expensive to the man who is trying to keep sheep. Out of eighty head of sheep with which I started, I soon had only about twenty left. I got disgusted, and sold them in Richmond for whatever they would bring, and quit the business and the State.
"Sheep will do no good in a country where there are so many dogs, for they are easily frightened, even if the dogs are only running through the field they are in. Sheep must be kept quiet to make a success of them. Do away with so many dogs in your State, and you will find that sheep will come in by the hundreds, and it will not be long before your farmers will see the difference in a financial way between keeping hounds and sheep.
"I know sheep will do well in Virginia, almost, if quite, as well as as here in Ohio. Surely your short, mild winters and near-by markets would be an advantage over the hard winters and long distance from market up here."
What say our farmers, hereabouts, to this?
Are there not too many dogs—useless curs—and too much poverty, begetting sentimentality on the dog question in this country?
Fewer dogs and more sheep would prove of wonderful prosperity to the Farmers of North Carolina. And no dogs and all sheep would soon make them the most affluent and contented class of people in the country.
Growing Old Gracefully.
"What a lovely old lady," I heard a man remark, at the opera, lately. "She's quite as beautiful as any girl in the house. Such color and complexion is rarely seen in a woman passed forty." Indeed, the woman of whom he spoke was lovely. Her face was clear and smooth, her cheeks, fresh and rosy, her eyes bright with perfect health and the enjoyment of life. She had passed the critical "change of life" without falling into "the mere and yellow leaf," as most American women do. How had she succeeded in doing this? Simply by using Dr. Pierce's Favorite Prescription at a time when nature stood in need of some assistance. In doing she was wise. Wiser than most women who "trust to luck" in getting through the critical and trying period safely. This standard remedy is just what is needed as such a time. It is, from girlhood to old age, women's best friend. In all diseases peculiar to the sex, it accomplishes what no other remedy does—a cure. Take it, women, when life's autumn begins, and "grow old gracefully." Your money back if it doesn't help you.

Good News From Duplin.
KENANSVILLE, N. C., April 5, 1892.
Dear Argus: After about six weeks confinement to the house, from sickness, I now resume my pen to give you some items which, I hope, may prove encouraging.
But, first and foremost, allow me to congratulate you upon the manly, intelligent, and sagacious course you have pursued, in the midst of political complexities, such as I have never known before, especially in reference to Presidential candidates.
Well, sir, allow me to say, that if you had used your surveying instruments, and measured the field, you could not have succeeded better in taking in the situation.
Cleveland is booming now, and the prospect is bright for his nomination. This is gratifying to every sound Democrat, and relieves a goodly number of sound and zealous men, from the embarrassment of the question of *availability*.
The Farmers' Alliance, held a meeting here yesterday which was well attended, and was addressed by president Butler.
One among the most prominent and intelligent members of the Alliance told me that Cleveland was his first choice, and gave the substantial reason, that he was honest and true, therefore he would not be ruled by machine politics, nor did his former administration as President ever know "a power behind the throne."
The Tariff question is the important issue, and if secured to the country, (our country) will bring to the masses a more effective relief than all other measures combined.
Let the Tariff, and that alone, be the campaign issue, making one broad and unmistakable track along the political highways, and success, glorious success, will crown our efforts.
Permit me, further, to state that I do not believe the so-called "Third Party" movement, as yet, has found much support in this good old country.
Our primaries, here, will be properly attended to, and I do not believe there will be much of a schism, if any.
God bless you and speed you in the good work, and may "your shadows never grow less." VERITAS.
President Butler's Circular.
(Official Circular No. 5.)
PRESIDENT'S OFFICE N. C. S. F. A. CLINTON, N. C. March 15, 1892.
To the Lecturer County F. A.:
Dear Brethren:—We are nearing the time when important action in the battle for reform must be taken. We are nearing the time when we and our highest principles will be put to the highest test. At such a time and in matters of such grave importance to the cause and to each of us personally, I desire the benefit of your counsel. I desire a conference with one true Allianceman or more from each county in the State. Therefore I ask you at your April county meeting to elect one man to be in Raleigh on Tuesday, May 17th to meet with men in conference. Elect your best and truest member and empower him to act for you in a representative capacity in any emergency that may arise. Instruct him to use his best judgment for the good of the organization and the cause of reform, and put on him one restriction, and one only—that he must not under any circumstances compromise or back down from the St. Louis demands.
The conference will convene at 10 o'clock on the morning of the 17th. See that your representative is furnished with a certificate of his election under seal of your county lodge and is on hand on the day named. If he is not able to bear his own expenses assist him so that he will be sure to go. Have your county secretary to furnish me at once with his name and address.
Fraternally,
MARION BUTLER,
President N. C. F. S. A.
Have the above communication read and acted on at your county meeting.
A Great Explosion.
In these days of gunpowder, dynamite, giant powder, and the like, tremendous explosions are no rarity, but the greatest explosion of modern times is, without doubt, that of the "old-school" idea that Consumption is incurable. Thousands of lives have been sacrificed to this mistaken notion. Modern research has established the fact that Consumption is a curable disease of the lungs, and that there is one remedy which will positively eradicate it from the system—Dr. Pierce's Golden Medical Discovery. Of course the cure was in the olden times many who would have pronounced modern explosives instruments of witchcraft; but there are, fortunately, few today who do not acknowledge this "Golden Medical Discovery" is the one sovereign remedy for all scrofulous diseases and Consumption is one of them.
"Oh! love, what is it in this world of ours that makes people suffer so with neuralgia? Can't tell my pet, unless the average citizen hasn't got Salvation Oil—the greatest cure for pains.
Just received a large line of Boys knee pants—sell 'em as low as 25c per pair.
